

Say goodbye to old Excel risk registers and hello to new risk management tools

User friendly

Easy, quick and secure system for managing risk events in the cloud.

Affordable fees

Low-cost subscriptions means a great investment return on the risk software.

Delivers savings

Save time, effort, resources compared to Excel or older systems.

Easily tailored

Easily flex system framework, terminology, dashboards, and reports to suit your business.

Reassures stakeholders

Boosts confidence of boards, executives, regulators with a new, robust system approach.

Quick setup

Go “live” in days or weeks not months with simple setup requirements.

simple . streamlined . secure

Finally, risk software that's simple, secure and affordable

Because Risk Wizard is so easy, fast, and safe to use, it immediately frees up valuable time, improving your risk process without breaking the budget.

Our risk management tool avoids 'death by spreadsheet'

Outgrown Excel? Step up to Risk Wizard - it's quick, easy to use, flexible and hosted in a safe, local cloud environment.

- ✓ Stronger data security keeps sensitive details private
- ✓ Drill down dashboards superior to basic Excel charts
- ✓ Automatic workflow instead of emailed spreadsheets
- ✓ Shared suite of pre-built reports tailored to users
